ACADEMIC PROFILE SUMMARY

Highly motivated and detail-oriented undergraduate Computer Science student at the University for Development Studies (UDS). Passionate about leveraging software development, data analytics, and mobile technology to address local and global sustainable development challenges. Combines practical tech stacks (Python, JavaScript, SQL) with fieldwork insight gained through the UDS Third Trimester Field Practical Programme (TTFPP) to build impactful, data-driven software solutions.

EDUCATION

BSc in Computer Science (Expected Completion: 2029) Oct 2023 – Present
University for Development Studies (UDS) Tamale, Ghana

- **Key Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems (DBMS), Web Development, Software Engineering, Research Methods.
- **Academic Performance:** Maintained consistent First Class division standing.

TECHNICAL PROJECTS & FIELDWORK

Technology & Data Lead (Third Trimester Field Practical Programme - TTFPP) May 2025 – Jul 2025
University for Development Studies (UDS) Northern Region, Ghana

- Designed and deployed digital mobile surveys via Kobo Toolbox to optimize field data collection for a rural community assessment profile.
- Cleaned, structured, and analyzed field survey datasets from over 150 households using Python (Pandas) to extract insights on regional healthcare accessibility.
- Presented data visualizations and automated statistical findings to District Assembly representatives to support evidence-based local planning.

Developer — Open-Source Gender Equity Tracking Dashboard Jan 2026 – Present
Academic & Personal Project Tamale, Ghana

- Building a web application using React.js and Node.js that aggregates and visualizes public data regarding women's leadership representation, aligning with SDG 5 (Gender Equality).
- Implementing an interactive frontend dashboard using Chart.js to make statistical metrics digestible for civil society policy tracking.

LEADERSHIP & CAMPUS INVOLVEMENT

Technical Committee Member / Member Nov 2024 – Present

UDS Computer Science Students Association (COMPSSA) Tamale Campus

- Co-organized peer-to-peer coding bootcamps on campus, mentoring 30+ first-year students in Python and basic programming logic.
- Collaborated in planning departmental tech hackathons and coordinated logistics for guest tech speakers.

TECHNICAL SKILLS & COMPETENCIES

Programming Languages: Python, JavaScript (ES6+), SQL, HTML5/CSS3, Java

Tools & Frameworks: React.js, Node.js, Git/GitHub, PostgreSQL, MySQL, Kobo Toolbox, Pandas

Core Concepts: Mobile Data Collection, Data Visualization, Object-Oriented Programming (OOP), RESTful APIs

LANGUAGES

Professional Fluency: English (Official), Dagbani, Hausa
